# Board 101

# Practical training & support for CEOs as they establish a board

The Wallace McCain Institute's mission is to "help entrepreneurs have a better chance of success". To that end, a meaningful role for WMI is to help a select group of founders, CEOs and successors establish a board of directors or advisors. Board101 is designed to support CEOs through the steps to design, prepare and hold a first board meeting. The program is designed to hold participants accountable to making progress between meetings.

"I am ready to take this to a new level and need a group of trusted advisors around me as I make critical decisions."

"I have a strategic plan, but it is too easy to get off track. I need a group to hold me accountable to my strategy."

"I have been told by investors / suppliers / partners to establish a board, but I have no idea how to start."

"I am taking over the family business and a board would provide needed separation between me and Dad."

#### **2016-17 TOPICS AND SCHEDULE**

The program starts with a 2 day training retreat that covers a comprehensive range of topics related to boards. After the first session, the subsequent meetings will be one day sessions that walk participants through a three step process to form a board. The program concludes with a debrief on the first board meeting. The pace of the one day sessions is matched to the amount of time needed to complete the practical "homework" assignment that will propel the members forward in the creation of their boards.

Date	Content	Homework
September 13 <sup>th</sup> @7PM - 15 <sup>th</sup> @5PM	<ul> <li>Foundation – An overview of the entire program</li> <li>Types of boards</li> <li>Authority and skill mix of directors</li> <li>Getting the most out of a board</li> </ul>	<ul><li>a) Respond on all the points raised in the outline</li><li>b) Describe the ideal chairperson and possibly thinking of some names.</li></ul>

# Board 101

Practical training & support for CEOs as they establish a board

#### SESSION FORMAT

The program includes 5 sessions that total 6 days of interaction. The one day sessions will be held in various New Brunswick cities that will be selected after the members of the group have been selected so that the travel burden can be minimized. Each session will combine training from the facilitators, sharing between group members, individual or small group exercises, an external speaker and a homework exercise.

9:00 Participant progress review updates

10:30 Workshop 1 with exercises

12:00 Lunch with speaker

1:00 Afternoon speaker

2:30 Workshop 2 with exercises

4:00 Assignment of homework project

4:45 Survey and depart

## PROGRAM LEADERS

An experiential program is highly dependant on the people, bot the participants and the leaders. The two program leaders both have significant experience with private, public and NGO boards. Both leaders will participate in each session, run the workshop components and provide 1:1 mentoring to participants during their personal exercises.
