Emergence client, Stepscan Technologies Inc., signs international distribution agreement with Deltason Medical Ltd. of Hong Kong

Posted on February 13, 2018 by PEI BioAlliance

Charlottetown, PEI-based **Emergence** client, **Stepscan Technologies Inc.**, has announced the signing of an international distribution agreement with **Deltason Medical Ltd.** (Deltason) of Hong Kong.

Through this deal, Deltason becomes a representative of the **Stepscan® Gait Analysis System**, marketing and distributing it to healthcare professionals within their territory. Click here to view the formal announcement!

Stepscan Technologies is a Canadian technology company dedicated to the development and commercialization of its two patents in the field of movement tracking and analysis. The company's pressure sensitive flooring system has many applications beyond medical research and clinical rehabilitation, including sports training and clinical drug trials, as well as military training /virtual simulation and security.

Stepscan® software can generate detailed Gait, Pressure and Balance Reports.

Deltason is a Southeast Asian distributor of rehabilitative and medical equipment. Established in 1994, they have built a reputation for quality and excellence in both product offerings and customer service. Deltason was accredited with ISO certification in 2013 for their ability to provide and maintain medical devices and related services that consistently meet customer needs and regulatory requirements. Today, they represent over thirty partner brands from around the world.

Stepscan and Deltason both share the vision of using technology to improve people's lives; Deltason's company motto stating, *"Take up the shield of faith and spread the seed of hope."*

Stepscan CEO, **Crystal Trevors**, told us that she is *"confident that these parallel company philosophies will lead to a long-term, prosperous partnership"*.
